Professional Summary

Highly driven **BSc Computer & Information Sciences student** with strong technical foundations in software development, cloud fundamentals, and database management. Proven experience building real-world projects using **Java, C#, SQL, ASP.NET Core**, and modern web technologies. Adept at problem-solving, analytical thinking, and collaborative teamwork. Seeking **internships, learnerships, or junior opportunities** to apply technical skills and grow within the tech industry.

Core Competencies

- **Programming:** Java (OOP, Swing), C# (ASP.NET Core MVC, Console Apps)
- **Web Development:** HTML, CSS, JavaScript, ASP.NET Core MVC
- **Databases:** SQL design, queries, database management
- **Cloud Computing:** Azure fundamentals & resource management
- **Software Engineering:** Debugging, documentation, version control principles
- **Mathematics:** Algebra, Calculus, Probability & Statistics
- **Soft Skills:** Communication, teamwork, leadership, report writing

Technical Projects

Cybersecurity Chatbot — C# Console Application

- Developed an interactive chatbot that educates users on cybersecurity best practices.
- Implemented multi-threading, data validation, and dynamic user interaction.

EventEase Web Application — ASP.NET Core MVC

- Built an event management platform with venue management, event listings, and booking features.
- Designed using the MVC architecture for scalability and clean separation of concerns.

Monthly Contract Claim System — ASP.NET Core MVC

- Created a claims submission and tracking system for contractor lecturers.

- Includes **document upload, approval workflow, and automated status tracking**.

Side Projects

Personal Portfolio Website

- Designed and deployed a fully responsive portfolio showcasing development work.
- Built using HTML, CSS, and JavaScript.
- **Demo Site:** https://deft\-truffle\-875be7\.netlify\.app/

Experience

Server — Anova Year-End Party 2023

Elevated Purpose Marketing & PR

- Delivered excellent service at a large-scale corporate event.
- Collaborated with a fast-paced team to ensure smooth operations.

Education

Bachelor of Computer and Information Sciences (BCIS)

Emeris University – Ruimsig Campus

2024 – Present (Third Year)

Matric Certificate

Victory House Private School

2024
